

METROPOLITAN COUNCIL

PART IV. ITEMS FOR METROPOLITAN AREA PUBLIC SUPPLIERS

Minnesota Statute 473.859 requires water supply plans to be completed for all local units of government in the seven-county Metropolitan Area as part of the local comprehensive planning process. Much of the required information is contained in Parts I-III of these guidelines. However, the following additional information is necessary to make the water supply plans consistent with the Metropolitan Land Use Planning Act upon which local comprehensive plans are based. Communities should use the information collected in the development of their plans to evaluate whether or not their water supplies are being developed consistent with the Council's Water Resources Management Policy Plan.

Policies. Provide a statement(s) on the principles that will dictate operation of the water supply utility: for example, "It is the policy of the city to provide good quality water at an affordable rate, while assuring this use does not have a long-term negative resource impact."

It is the policy of the Shakopee Public Utilities Commission to provide its customers with the best available quality water at the most affordable rate, while assuring this use does not have a long term negative resource impact.

Impact on the Local Comprehensive Plan. Identify the impact that the adoption of this water supply plan has on the rest of the local comprehensive plan, including implications for future growth of the community, economic impact on the community and changes to the comprehensive plan that might result.

The Comprehensive Water Supply Plan is done in conjunction with the City of Shakopee Comprehensive Plan. There is no expected impact with the water supply plan.

Demand Projections

Year	Total Community Population	Population Served	Average Day Demand (MGD)	Maximum Day Demand (MGD)	Projected Demand (MGY)
2010	39500	36500	6.388	17.886	2331.62
2020	48500	45500	7.962	22.294	2906.13
2030	52000	49000	8.575	24.010	3129.87
Ultimate	52000	49000	8.575	24.010	3129.87

Population projections should be consistent with those in the Metropolitan Council's 2030 *Regional Development Framework* or the Communities 2008 Comprehensive Plan update. If population served differs from total population, explain in detail why the difference (i.e., service to other communities, not complete service within community etc.).

There is not complete service within Shakopee. There are pockets of the City with private wells or private community wells.

PLAN SUBMITTAL AND REVIEW OF THE PLAN

The plan will be reviewed by the Council according to the sequence outlined in Minnesota Statutes 473.175. Prior to submittal to the Council, the plan must be submitted to adjacent governmental units for a 60-day review period. Following submittal, the Council determines
